

AberCompSoc/CSTF Partnership

Thursday 16th March 2017

Recently, AberCompSoc was approached by a group called the Cyber Security Task Force (CSTF), wishing to promote cyber security awareness via training and education for university students. Excited by the idea, AberCompSoc agreed to partner with CSTF. However, ultimately the society felt that no agreeable terms could be concluded on how the two entities would communicate & cooperate, or how they would be governed.

Given the above circumstance, AberCompSoc no longer feels that partnering with CSTF is beneficial for either party to achieve their aims. Effective at the publication of this document, AberCompSoc is no longer a partner to CSTF. Both parties are to review their media, documents, advertisements etc. and modify them accordingly.

AberCompSoc looks forward to seeing what CSTF can achieve in the future, and offers its encouragement in their growth.
